## 2020's Halfway to Freezing For Food Event

Though Sunny 97.7's bi-annual food drive was delayed by several months, and ran for just two days instead of the usual three, it was still successful in bringing in significant amounts of canned goods and shelf stable items for the benefit of Helping Hands of Roseville and Jamieson Center Food Pantry. Pictured is a very small portion of the supplies purchased with money brought in by the radio staffs' efforts and that of the volunteers who were able to participate.

The benefit came at a very crucial time for Helping Hands of Roseville as their canned vegetable and fruit selection had grown very lean! Again, a sincere thank you from the Roseville pantry goes out to all who gave time and money for the sake of feeding local families during these challenging days.

## Helping Hands Stands to Benefit from Farm Bureaus' Donation

From the August 2020 edition of the Bi-County Cultivator:

"The county farm bureaus of Bureau, Henry, Knox, Mercer, Rock Island, Stark, and Warren-Henderson make up the Quad City Regional Advertising Committee. On August 21st, the committee was able to present the Riverbend Food Bank with a \$10,000 donation. Funds will go toward beef and pork products and be distributed to food pantries in the eight counties."

Helping Hands of Roseville looks forward to connecting local families with the protein options that will be made available because of this generous donation.
